Thank you all so much for the love, kindness and care you gave to Ann, it was very hard for her not being able to go walkabout, but you all handled the situation very well, she was always cheerful when I visited and seemed content most of the time, and very well cared for. A HUGE THANK YOU TO THE TEAM on duty 2nd December with Ann. I will always be grateful for that special care. Jan 2020

Thank you for contacting me and letting me know the situation. Thank you for taking the time to update me on the latest position when I popped in. I just wanted to say thank you to you and the team for noticing that my friend was out of sorts -that is a real credit to you all for knowing your residents. And I must add that I am really thrilled of the great relationships you have with health colleagues to be able to ensure that within just a few hours of noticing the rash, she had, had a firm diagnosis and all the medication to start her course of treatment - that is a credit to you all. Thank you for all you have done today. Jan 2020
